Re: **Affordable Care Act**

The Affordable Care Act requires us to notify all employees that you may be eligible to enroll and purchase healthcare insurance through your state exchange (marketplace) or the Federally run exchange in your state, if the state decided not to open a State Marketplace. Depending upon your income you may be eligible for a premium subsidy through your state exchange. The opportunity for enrollment begins October 1st, 2013.

The Affordable Care Act individual mandate requires all US Citizens and resident Aliens to have healthcare coverage as of January 1st, 2014. In the event, coverage is not purchased the IRS will levy either a fine of \$95.00 or 1% of your gross income whichever is greater. The fines will be paid when your 2014 taxes are filed.

If your state has accepted the Medicare expansion, and your 2013 W-2 reportable earnings will be less than \$15,442 for an individual or \$32,499 for a family of four, you will qualify for Medicaid and receive free healthcare insurance through the exchange. If your state accepted the Medicaid expansion you must apply to your state (resident) exchange for coverage.

Premium tax credits or subsidies are available to individuals and families whose earned income is between 100-400% of the Federal Poverty Level. Your state Marketplace exchange or the federal state exchange will be able to assist you in calculating the premium subsidy for the coverage you choose and enrolling in order to obtain the coverage.

New Health Insurance Marketplace Coverage Options and Your Health Coverage

Form Approved
OMB No. 1210-0149
(expires 11-30-2013)

PART A: General Information

When key parts of the health care law take effect in 2014, there will be a new way to buy health insurance: the Health Insurance Marketplace. To assist you as you evaluate options for you and your family, this notice provides some basic information about the new Marketplace and employment-based health coverage offered by your employer.

What is the Health Insurance Marketplace?

The Marketplace is designed to help you find health insurance that meets your needs and fits your budget. The Marketplace offers "one-stop shopping" to find and compare private health insurance options. You may also be eligible for a new kind of tax credit that lowers your monthly premium right away. Open enrollment for health insurance coverage through the Marketplace begins in October 2013 for coverage starting as early as January 1, 2014.

Can I Save Money on my Health Insurance Premiums in the Marketplace?

You may qualify to save money and lower your monthly premium, but only if your employer does not offer coverage, or offers coverage that doesn't meet certain standards. The savings on your premium that you're eligible for depends on your household income.

Does Employer Health Coverage Affect Eligibility for Premium Savings through the Marketplace?

Yes. If you have an offer of health coverage from your employer that meets certain standards, you will not be eligible for a tax credit through the Marketplace and may wish to enroll in your employer's health plan. However, you may be eligible for a tax credit that lowers your monthly premium, or a reduction in certain cost-sharing if your employer does not offer coverage to you at all or does not offer coverage that meets certain standards. If the cost of a plan from your employer that would cover you (and not any other members of your family) is more than 9.5% of your household income for the year, or if the coverage your employer provides does not meet the "minimum value" standard set by the Affordable Care Act, you may be eligible for a tax credit.¹

Note: If you purchase a health plan through the Marketplace instead of accepting health coverage offered by your employer, then you may lose the employer contribution (if any) to the employer-offered coverage. Also, this employer contribution—as well as your employee contribution to employer-offered coverage—is often excluded from income for Federal and State income tax purposes. Your payments for coverage through the Marketplace are made on an after-tax basis.

How Can I Get More Information?

For more information about your coverage offered by your employer, please check your summary plan description or contact _____.

¹ An employer-sponsored health plan meets the "minimum value standard" if the plan's share of the total allowed benefit costs covered by the plan is no less than 60 percent of such costs.
