Important Questions	Answers	Why This Matters:
What is the overall deductible?	In-Network: \$3,000 individual / \$6,000 family Out-of-Network: \$3,000 individual / \$6,000 family	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan , each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible (embedded). Prescription drugs are subject to separate deductible.
Are there services covered before you meet your deductible?	Yes. Office visits, urgent care, and preventative care, are covered before you meet your deductible .	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible . See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ .
Are there other deductibles for specific services?	Yes. \$100 for Prescription Drugs. There are no other specific deductibles.	You must pay all of the costs for these services up to the specific deductible amount before this plan begins to pay for these services.
What is the out-of-pocket limit for this plan?	In-Network: \$6,350 individual / \$12,700 family Out-of-Network: \$6,350 individual / \$12,700 family	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan , they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met (embedded). Prescription drug cost-share applies to the medical out-of-pocket limit .
What is not included in the out-of-pocket limit?	Premiums, balance-billed charges, and health care this plan does not cover.	Even though you pay these expenses, they don't count toward the out-of-pocket limit .
Will you pay less if you use a network provider?	Yes. For professional providers in the NY/NJ area see www.magnacare.com . For professional providers for non-NY/NJ members see www.multiplan.com . You may also	This plan uses a professional provider network . You will pay less if you use a provider in the plan's network . You will pay the most if you use an out-of-network provider , and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware, your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
